

Video tutorials for using the equipment

How to **use the Samsung Galaxy Tablet**, take and view photos and videos

<https://youtu.be/Bat1M0g4m78>

How to **take and edit photos** on your Samsung tablet

<https://youtu.be/6eugP4yASZw>

How to **take a screenshot** of your tablet screen (e.g. images from an existing video)?

Press and hold the Power and Volume down keys at the same time. When you take a screenshot, it will be automatically saved in Gallery.

If you don't press them at the same time or if you hold them for too long, it will not work. Instead, the Power menu or Bixby will launch.

How to **record and edit audio** files:

Use this website: <https://online-voice-recorder.com/>

Or use Super Recorder on your Samsung tablet: <https://youtu.be/srqqdba7irs>

How to **edit your video using YouCut** video editor (cut, zoom in, add music, add text)

<https://youtu.be/pLU0CaQsuus>

YouCut is an app for tablets. **To use it on a PC/Mac**, you need an emulator, such as BlueStacks. It is an Android App Player that allows you to run Android apps on PC/Mac.

- Download and install BlueStacks: <https://www.bluestacks.com/download.html>
- Double-click on BlueStacks icon from desktop to launch it.
- Once BlueStacks is launched, you need to log in to your Google account from within BlueStacks
- Click "**My Apps**" button in the BlueStacks
- Search for: **YouCut - Video Editor**
- You will see search result for YouCut - Video Editor app just install it, find here the app whose developer is listed as InShot Inc.

How to **use the VR Cardboard viewer**
